## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-15 and 60, drawn to method and apparatus for cleaning sludge from a vessel with a vacuuming apparatus.

Group II, claim(s) 17-29,33-36 and 61, drawn to method of extracting hydrocarbons from waste material using solvent extraction and heating.

Group III, claim(s) 30-32, drawn to apparatus for extracting recyclable hydrocarbons from waste hydrocarbons and aggregates.

Group IV, claim(s) 37-53 and 59, drawn to apparatus for filtering air and transferring air between chambers with a vortex between each chamber.

Group V, claim(s) 54-58, drawn to apparatus for filtering gas using chambers in series , the chambers containing internal baffles, receiving regions and outlet ports.

Art Unit: 1797

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The Groups are drawn to diverse , somewhat unrelated inventions having divergent combinations of features; Group I is drawn to features of cleaning a vessel. Group II is drawn to extraction procedures. Group III is drawn to details of a heating means. Group IV is drawn to vortex means between air-handling chambers and Group V is drawn to structures of internal baffles located within chambers arranged in series.

Claims 62-70 and 75-78 are drafted as improper multiple dependent claims which improperly depend from combinations of 2 or more independent or other claims. Consequently, it cannot be determined into which of the Restrictable Groups these claims form a part of .

A telephone call was made to Matt Schneider on October 8, 2008 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

the examiner should be directed to Joseph Drodge at his direct government telephone number of 571-272-1140. The examiner can normally be reached on Monday-Friday from approximately 8:30 AM to 12:30 PM and 2:00 PM to 6:00 PM.

Alternatively, to contact the examiner, send a communication via E-mail communication to the Examiner's Patent Office E-mail address: "Joseph.Drodge@uspto.gov". Such E-mail communication should be in accordance with provisions of MPEP (Manual of Patent Examination Procedures) section 502.03 & related MPEP sections. E-mail communication must begin with a statement authorizing the E-mail communication and acknowledging that such communication is not secure and will be made of record, under Patent Internet Usage Policy Article 5. A suggested format for such authorization is as follows: "Recognizing that Internet communications are not secure, I hereby authorize the USPTO to communicate with me concerning any subject matter of this application by electronic mail. I understand that a copy of these communications will be made of record in the application file.

Additionally, the examiner's supervisor, David Roy Sample, of Technology Center Unit 1797, can be reached at 571-272-1376.

The formal facsimile phone number, for official, formal communications, for the examining group where this application is assigned is 571-273-8300.
